LAURENS VAN DER GOES

Data analyst with a passion for problem-solving, coding, and collaboration.

My background in clinical psychology, experience tutoring statistics, research methodologies, and data management software have made me a skilled and empathetic educator. I thrive in fast-paced, high-stress environments with opportunities for growth. I bring a diligent work ethic, technical expertise with a proficiency in SQL and Python, and exceptional soft skills to the table. I am adept at data visualization, using tools to transform complex data into clear, actionable insights.
